

Product Manual ●

Focus on the automated consumables applied in the S&T service industry, based on proprietary technology, Cotaus provides customers with broad-line of consumables, R&D, manufacturing, further customization services.

C●taus

Cotaus
Improve health, create a good life

Company profile

Suzhou Cotaus Biomedical Technology Co., Ltd was established in 2010. Cotaus focuses on the automated consumables applied in the S&T service industry, based on proprietary technology, Cotaus can provide broad-line of sales, R&D, manufacturing, further customization services.

Within an independent R&D team, Cotaus holds a high precision mold manufacturing factory in Suzhou, imports advanced equipment and manufacturing machines, carries out safety production in accordance with ISO 13485 system. We provide automated consumables with high and stable quality to our customers. Our products are widely used in life science, pharmaceutical industry, environmental science, food safety, clinical medicine and other fields. Our customers cover more than 70% of IVD listed companies and more than 80% of Independent Clinical Labs in China.

Cotaus has carried on industrial distribution in Taicang in 2022, built brand-new 5G intelligent factory. In order to achieve the vision of the enterpris - "Improve health, create a good life",we are committed to product diversification, business globalization, brand high-end.

13 Years

One of the earliest domestic manufacturers who focus on the automated consumables

15000 m²

Standardized factory within 5500 m² of 1000000-level purification workshop

80 Fully

Automatic production lines and intelligent monitoring system

1200 million pieces/day

Automated pipette tips have stable production capacity

Development history

We have set more ambitious ESG (Environmental Social Governance) aims in 2022, and have the capacity to shape the future.

2022 Devoted to pursuing our dream

- 1/Titled as "Suzhou Engineering Technology Research Center"
- 2/Build a 61000 m² 5G intelligent plant in Taicang
- 3/Passed FDA certification

2021 Cooperate for a bright future

- 1/Series-A financing in 2021
- 2/Holds a high precision mold manufacturing factory in Suzhou
- 3/Regarded as gazella company, gold seeding program in Suzhou Industrial Park

2020 Significant development

- 1/Obtain EU CE certification
- 2/Continuous expansion of production line, realize automatic production transformation
- 3/Awarded the best supplier by BGI Dx, the best supplier by Sansure Biotech

2016-2019 Industrialize development

- 1/Double production capacity
- 2/Cooperation with Autobio, and Maccura
- 3/Consecutively evaluated as Jiangsu High-Tech Enterprise

2013-2015 Channel construction

- 1/Evaluated as Jiangsu High-Tech Enterprise in 2013
- 2/Passed ISO 13485 medical instrument quality management system certification
- 3/Cooperation with China Agricultural University Transgene Laboratory and Academy of Military Medical Sciences

2010-2012 Development phase

- 1/Established
- 2/Research and development & mass production
- 3/Passed ISO 9001 quality management system certification

11+ Invention patents

25+ Utility model patents

EU CE Certification

FDA Certification

ISO 13485 medical instrument quality management system certification

Enterprise advantages

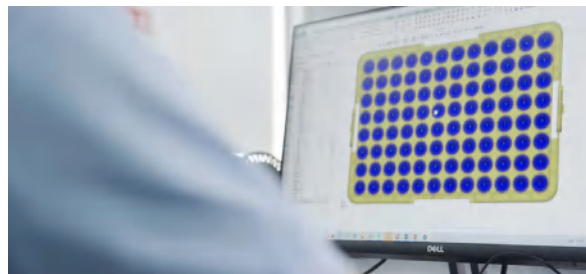

Broad-line of products

We have specialized in the automatic consumables applied in the S&T Service Industry more than ten years, have built a complete product line used in all part of IVD, life science, gene sequencing and more fields. We can provide the complete range of goods or services for customers.

Outstanding development capability

Within an independent R&D team, Cotaus holds a high precision mold making plant in Suzhou, import advanced equipment and manufacturing machines, R&D and manufacturing can be assured.

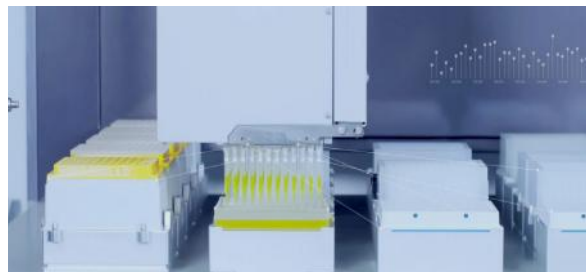

Well-experienced in customization

Since we are excellent at product R&D, mold design, and precision manufacturing, we can provide customized service for equipment manufacturing enterprise, reagent companies, and scientific research institutions. We have short development cycle and products with fine performance when carrying on OEM/ ODM business.

Consumables with high and stable quality

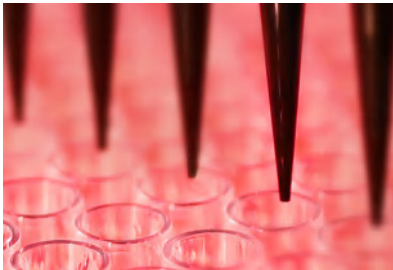

We carryout safety production in accordance with ISO 13485 system; we take customer application scenarios as a reference, build a brand-new quality laboratory; simulate the real scene for product test, consumables with good quality and stable performance are assured.

Recognized by leading enterprises

We have been recognized by leading enterprises for providing the consumables with good quality, stable performance, and fast active response. Cotaus has established long-term strategic cooperative partnership with a number of customers, built a tight ecological closed-loop, achieved multiple win-win outcomes with our cooperation company and customers.

Catalogue .

Automated Pipette Tip Series

Pipette tip series are adapted to automated liquid handling and automated sample management, incl. Tecan, Hamilton, Agilent, Apricot Designs, implementing high throughput operation of biological samples.

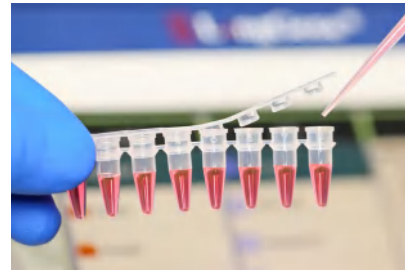

Pages 01-09

Universal Pipette Tip Series

Cotaus is equipped with high precision mold, consummate processing technology, to ensure pipette tip performance in liquid handling. Our universal pipette tips are adapted to Gilson, Eppendorf, ThermoFisher and other multiple-brand pipettes.

Pages 10-13

PCR Series

These series are applied in PCR, qPCR experiment. High precision mold design and maintenance, can ensure PCR products smooth and no liquid adhesion.

Pages 14-18

Well Plate Series

These series can meet the demand of automated workstation and labs; specialize in nucleic acid extraction and preservation, implementing automated liquid handling high throughput operation of biological samples.

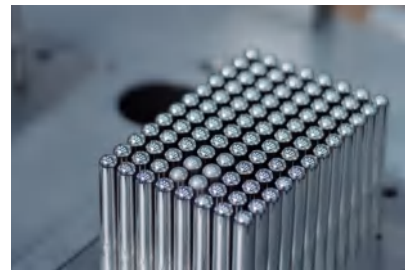

Pages 10-27

Cell culture well plate Series

A series of vessels are intended to help mimicking the internal environment for cells in vitro, so that they can survive, multiply and maintain the stable structure and function, which maintain the good adherent growth under different culture conditions, improving the cell output.

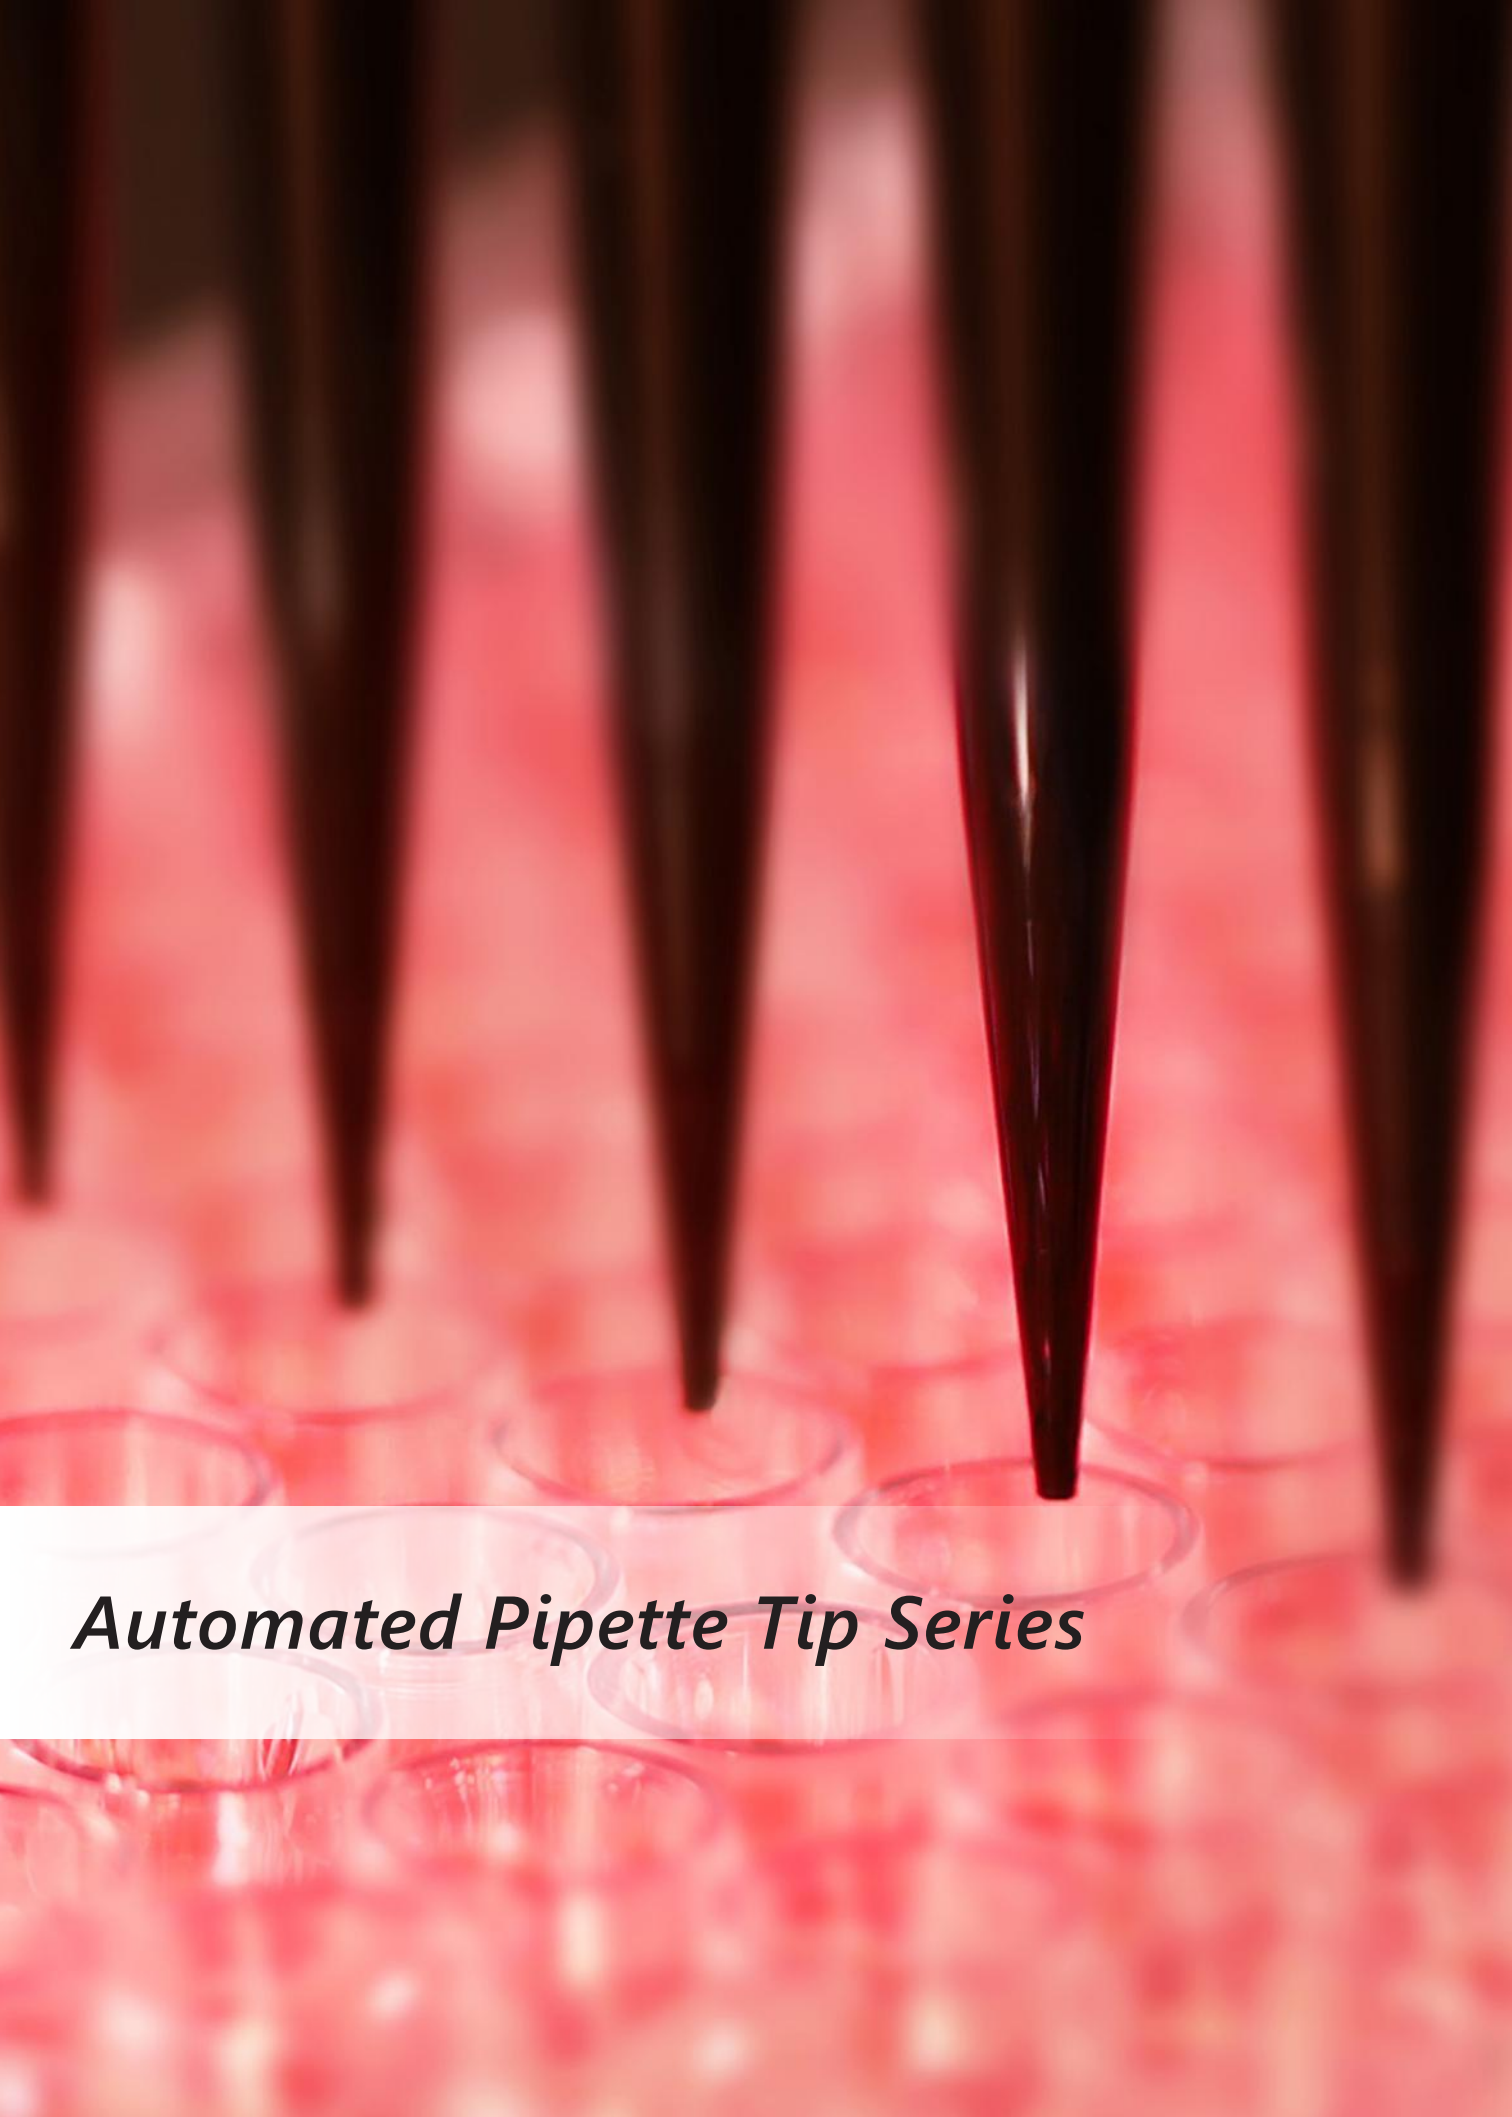

Pages 28-30

Provide customized services

We have industry leading mold, consumable development, design ability and first-rate injection molding processing technology, providing customers with customized products, R&D, manufacturing, meet customers' personalized and confidential demands.

Pages 31-32

Automated Pipette Tip Series

Automated Pipette Tip Series

Agilent、Tecan、Hamilton、Beckman、Xantus、RocheTIP&CUP、Apricot Designs

Feature

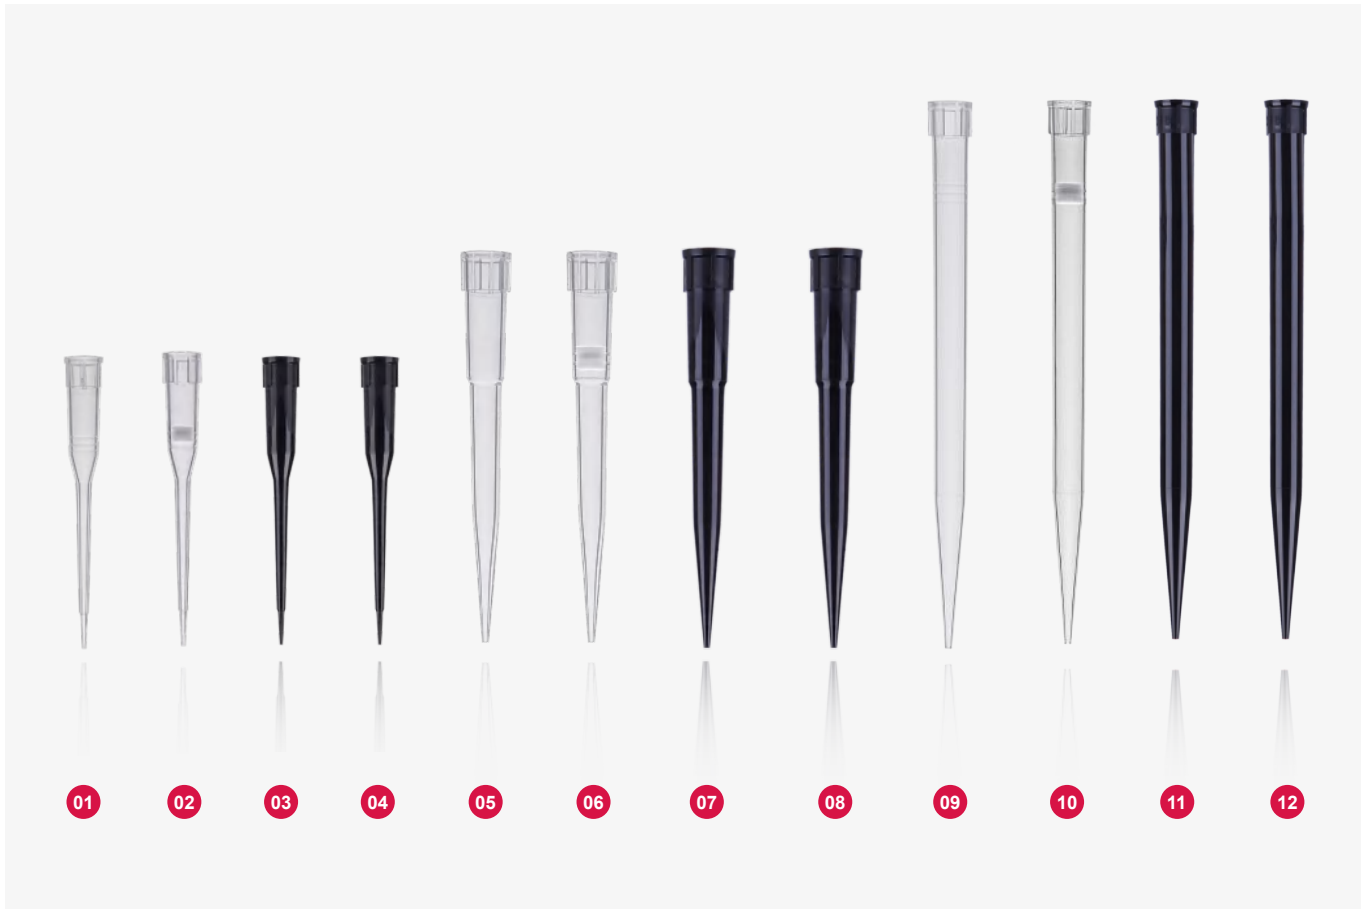

- ✔ Import medical grade PP materia: DNase-free, RNase-free, pyrogen-free, high toughness, not easily deformed
- ✔ Avoid cross-contamination effectively: good filter, verticality, and sealing
- ✔ Independent identification for easy tracking and traceability

Agilent Series

NO.	NO.	Name	Code	Unit	Packing
01	AG 30µl (384 wells)	Transparent Pipette Tip	CRAT030-A-TP	ctn	384 pcs/box(1 rack/box), 50 box/ctn
02	AG 30µl (384 wells)	Transparent Pipette Tip With Filter	CRAF030-A-TP	ctn	384 pcs/box(1 rack/box), 50 box/ctn

Universal Pipette Tip Series

Universal Pipette Tip Series

10µl Extended Length, 200µl Extended Length, 1000µl Extended Length, 10µl, 20µl, 50µl, 100µl, 200µl, 300µl, 1000µl.

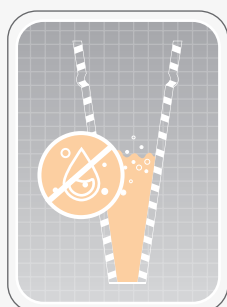

Concentricity $\pm 0.3\text{mm}$

High verticality and good stability

Strong adaptability

Standard size, adapted to the mainstream brand pipettes

Optimized size

extended length, adapted to containers of different depths when liquid handling

- ✔ Import medical grade PP materia: DNase-free, RNase-free, pyrogen-free
- ✔ Avoid cross-contamination effectively: good filter, superior hydrophobic property
- ✔ Independent identification for easy tracking and traceability

16	1000µl universal pipette tip with filter	CRFT1000-TP	bag	1000 pcs/bag, 20 bag/ctn
		CRFT1000-TP-9	box	96 pcs/box, 50 box/ctn

PCR Product Series

PCR Product Series

PCR Plate, PCR Single Tube

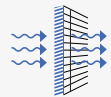

Thin inner wall-with U bottom

Uniform thickness of inner wall, excellent heat conduction effect, to promote the maximum amplification of the sample

Flat pipe cap

High light transmission, good sealing, ensure extremely high sensitivity in PCR/qPCR reaction.

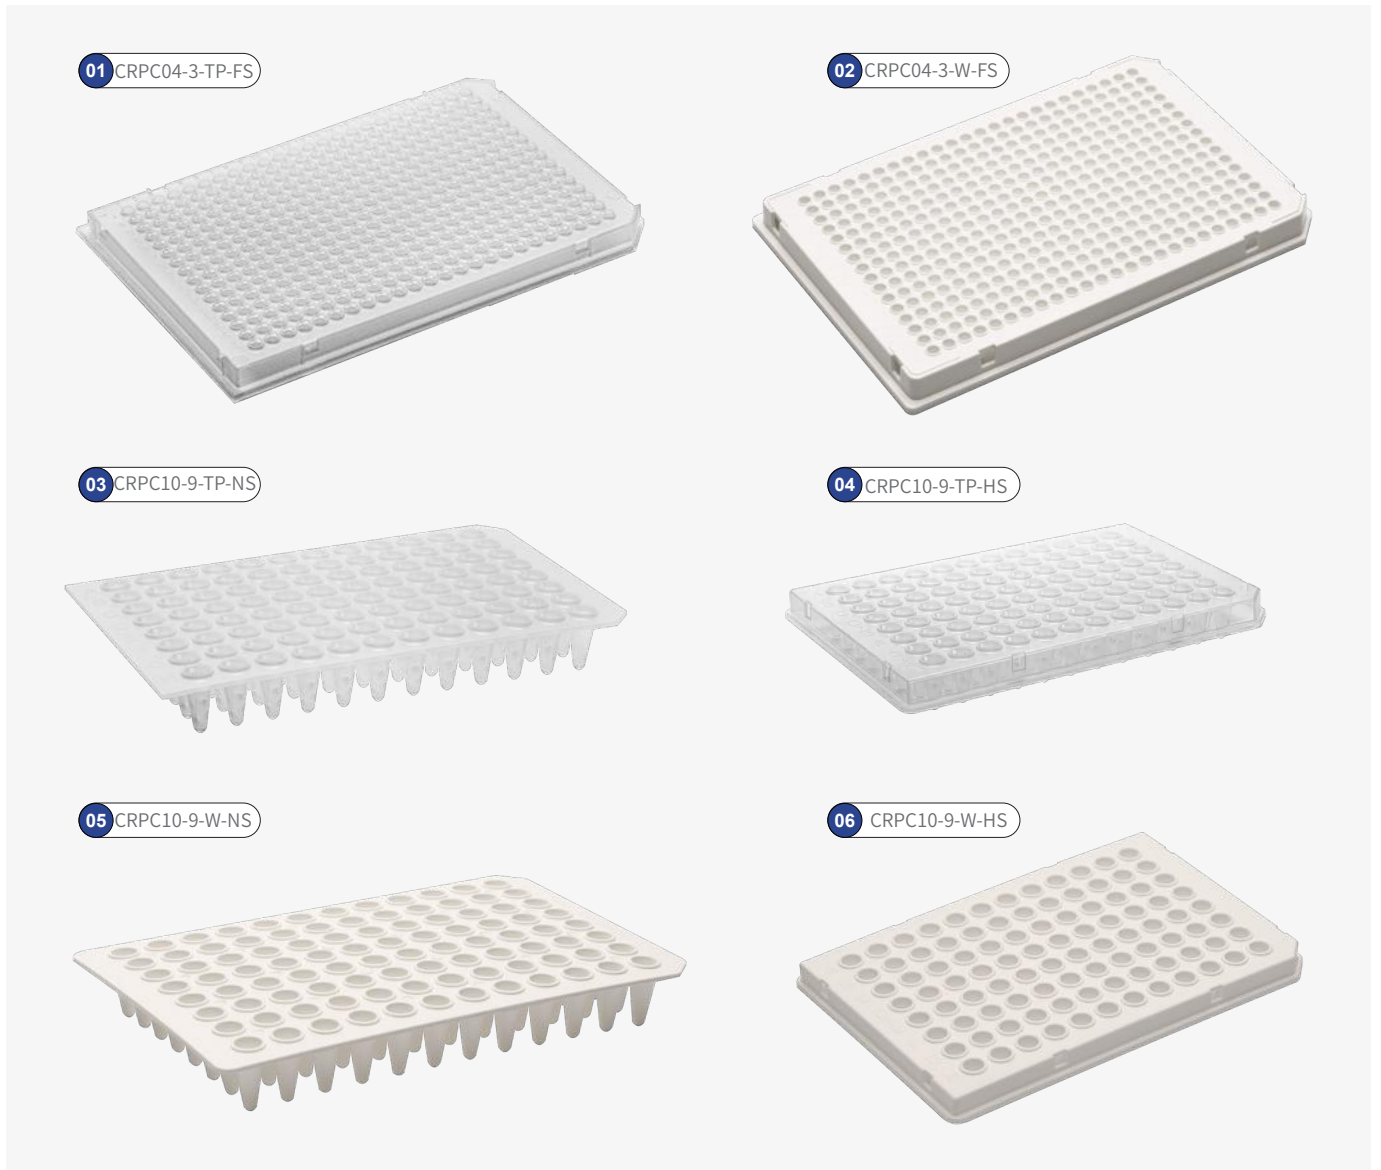

Low absorbability

No PCR inhibitor

-
- ✓ Import high quality PP materia, DNase-free, RNase-free, pyrogen-free
 - ✓ Used in qPCR and Quantitative Real-time PCR
 - ✓ Directional wells, easy to identify the direction
 - ✓ Advanced processing technology, lowering light loss for the flat cover

PCR Plate

Well Plate Series

Well Plate Series

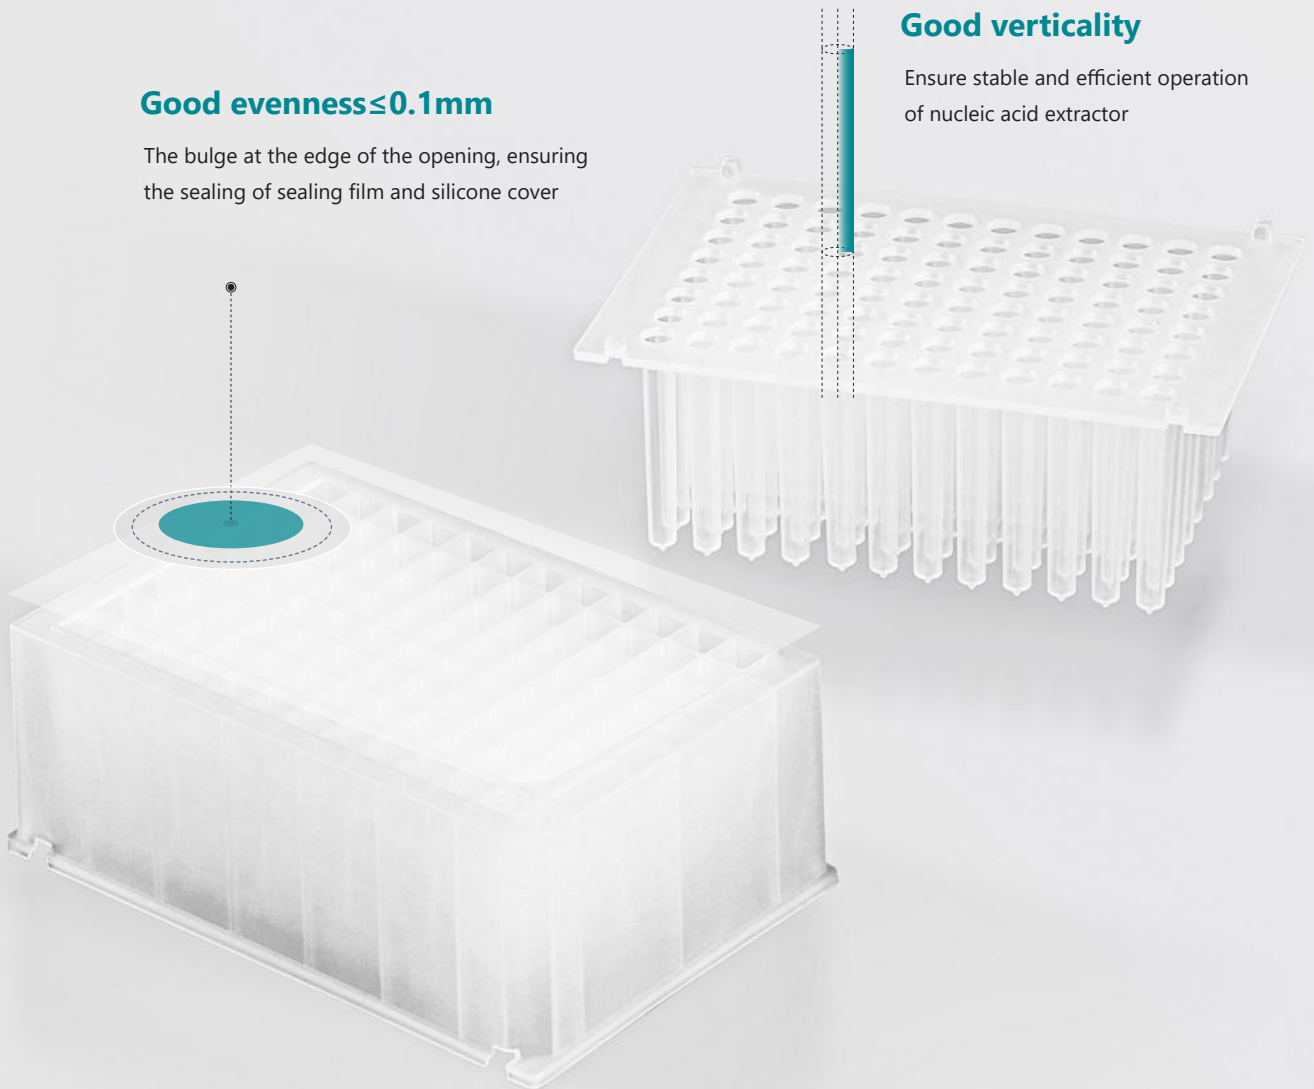

Square Hole Deep Well Plate Series、Circular Hole Deep Well Plate Series、Magnetic Rod Cover、Elisa Plate Series、Blood Group Plate Serie

Good evenness $\leq 0.1\text{mm}$

The bulge at the edge of the opening, ensuring the sealing of sealing film and silicone cover

Good verticality

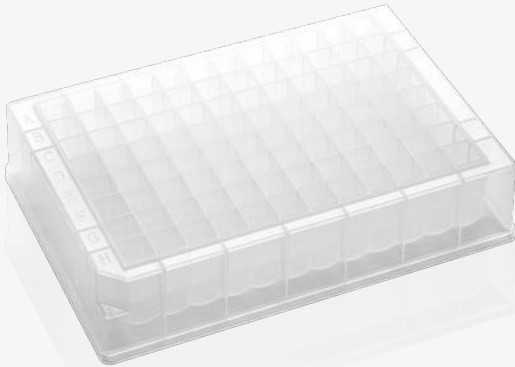

Ensure stable and efficient operation of nucleic acid extractor

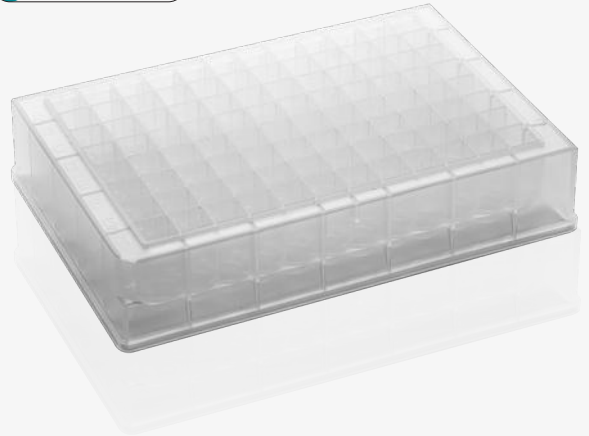

- ✔ Made of imported medical grade polypropylene (PP) DNase-free, RNase-free, pyrogen-free.
- ✔ Ultra-hydrophobic property, no liquid adhesion; good stability
- ✔ U bottom and v bottom, adapted to multi-channel pipettes and automated equipment.
- ✔ No chemical reaction with reagent contained in the plate, cryopreservation at -80°C , high temperature sterilization (121°C , 20min)
- ✔ Clear numbers on the board, facilitating sampling and easy to operate

Deep Well Plate & Magnetic Rod Cover

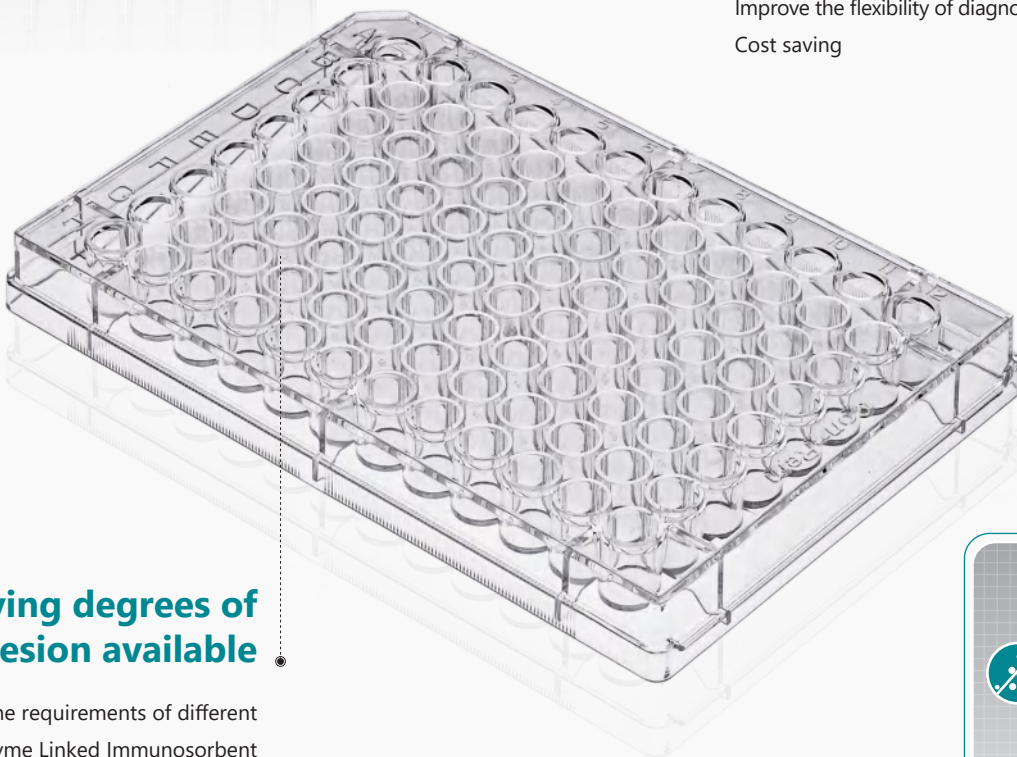

NO.	NO.	Name	Code	Unit	Packing
01		2.2ml 96 square deep well plate (V bottom)	CRSDP-V-9-LB	bag	5 pcs/bag, 10 bag/ctn
02		96 magnetic rod cover	CRCM-TC-96	bag	2 pcs/bag, 50 bag/ctn
03		2.2ml 96 square deep well plate (U bottom)	CRDP22-SU-9-LB	bag	5 pcs/bag, 10 bag/ctn
04		8-strip magnetic rod cover (AS)	CRCM-TC-8-A	bag	2 pcs/bag, 240 bag/ctn
05		10 ml 24 square deep well plate (V bottom)	CRSDP-V-24	bag	5 pcs/bag, 10 bag/ctn
06		24 well magnetic rod cover	CRCM-TC-24	bag	5 pcs/bag, 10 bag/ctn
04		2.2ml 96 square deep well plate (U bottom)	CRDP22-SU-9-NA	bag	5 pcs/bag, 10 bag/ctn
05		8-strip magnetic rod cover (TL)	CRCM-TC-8-T	bag	2 pcs/bag, 240 bag/ctn
06		200µl 96 square deep well plate (V bottom)(Elution plate)	CRSDP-V-L-LB	bag	10 pcs/bag, 10 bag/ctn

Elisa Plate

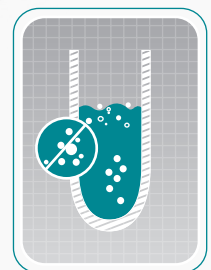

Removable

Improve the flexibility of diagnostic test
Cost saving

Varying degrees of adhesion available

Meet the requirements of different
Enzyme Linked Immunosorbent
Assay, on adsorption

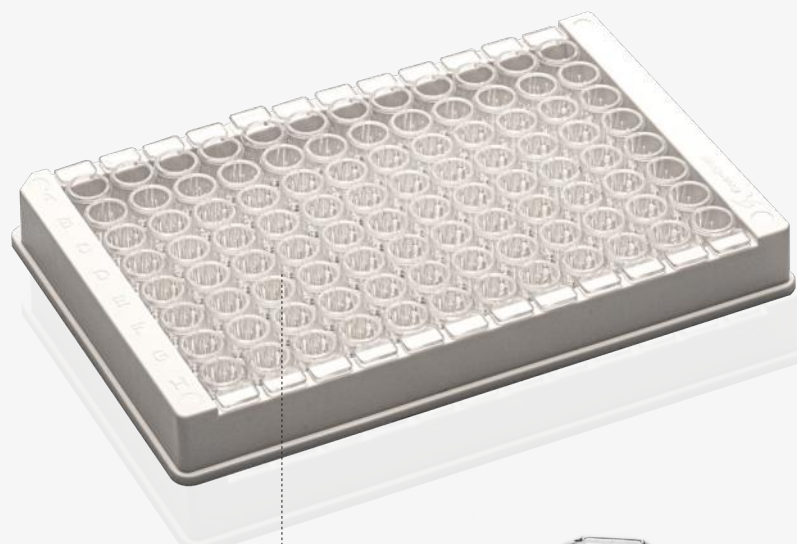

-
- ✓ High purity polystyrene material, DNase-free, RNase-free, pyrogen-free
 - ✓ Applied in solid phase immunoassay, for instance ELISA
 - ✓ Flat-bottomed design, high transparency of baseboard, alphanumeric marker, easy to direct
 - ✓ Good stability between batches, no chemical reaction with reagent contained in the plate, high optical quality, trustful results

Elisa Plate

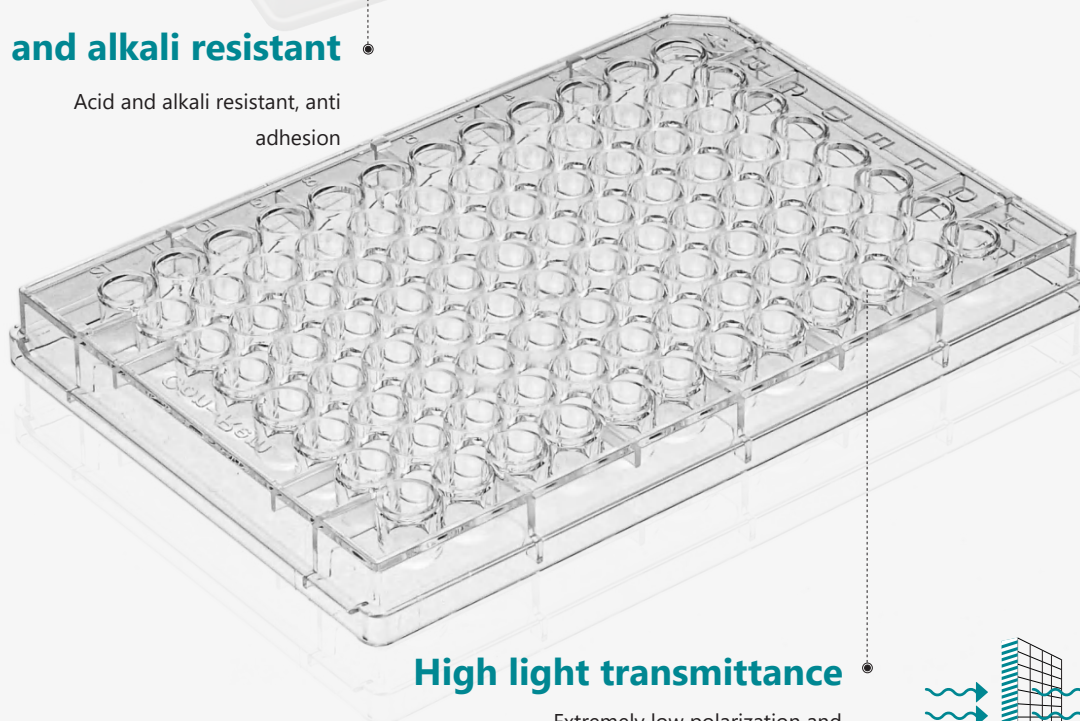

NO.	NO.	Name	Code	Unit	Packing
01		300µl Elisa plate (non-removable)	CRWP300-F	bag	1 pcs/bag, 200 bag/ctn
02		300µl Elisa plate (removable)	CRWP300-EP-H-D	box	10 pcs/box, 20 box/ctn
03		300µl Elisa plate (black)	CRWP300-F-B	bag	10 pcs/bag, 20 bag/ctn

Blood Group Plate

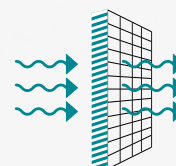

Acid and alkali resistant

Acid and alkali resistant, anti adhesion

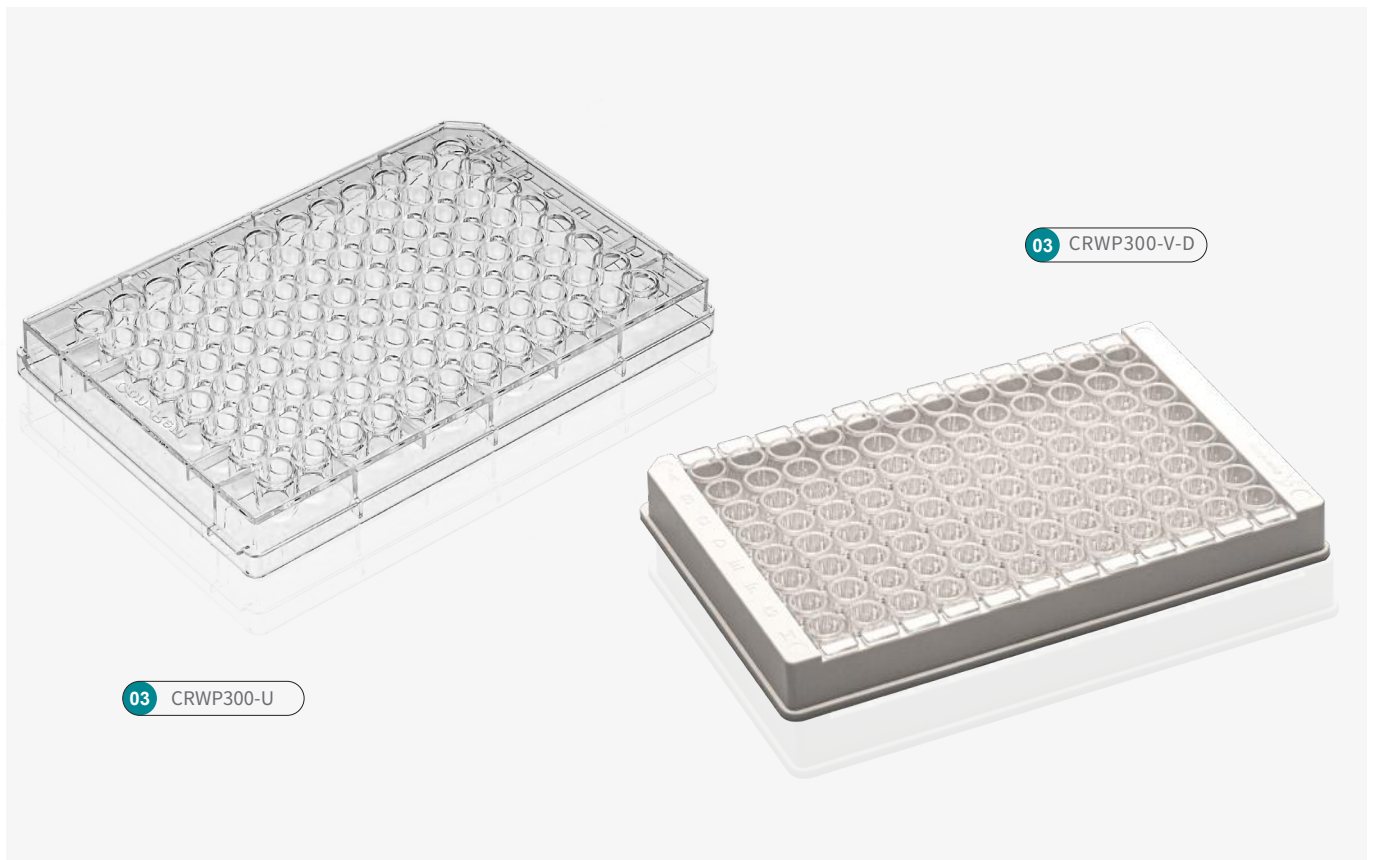

High light transmittance

Extremely low polarization and scattering rate

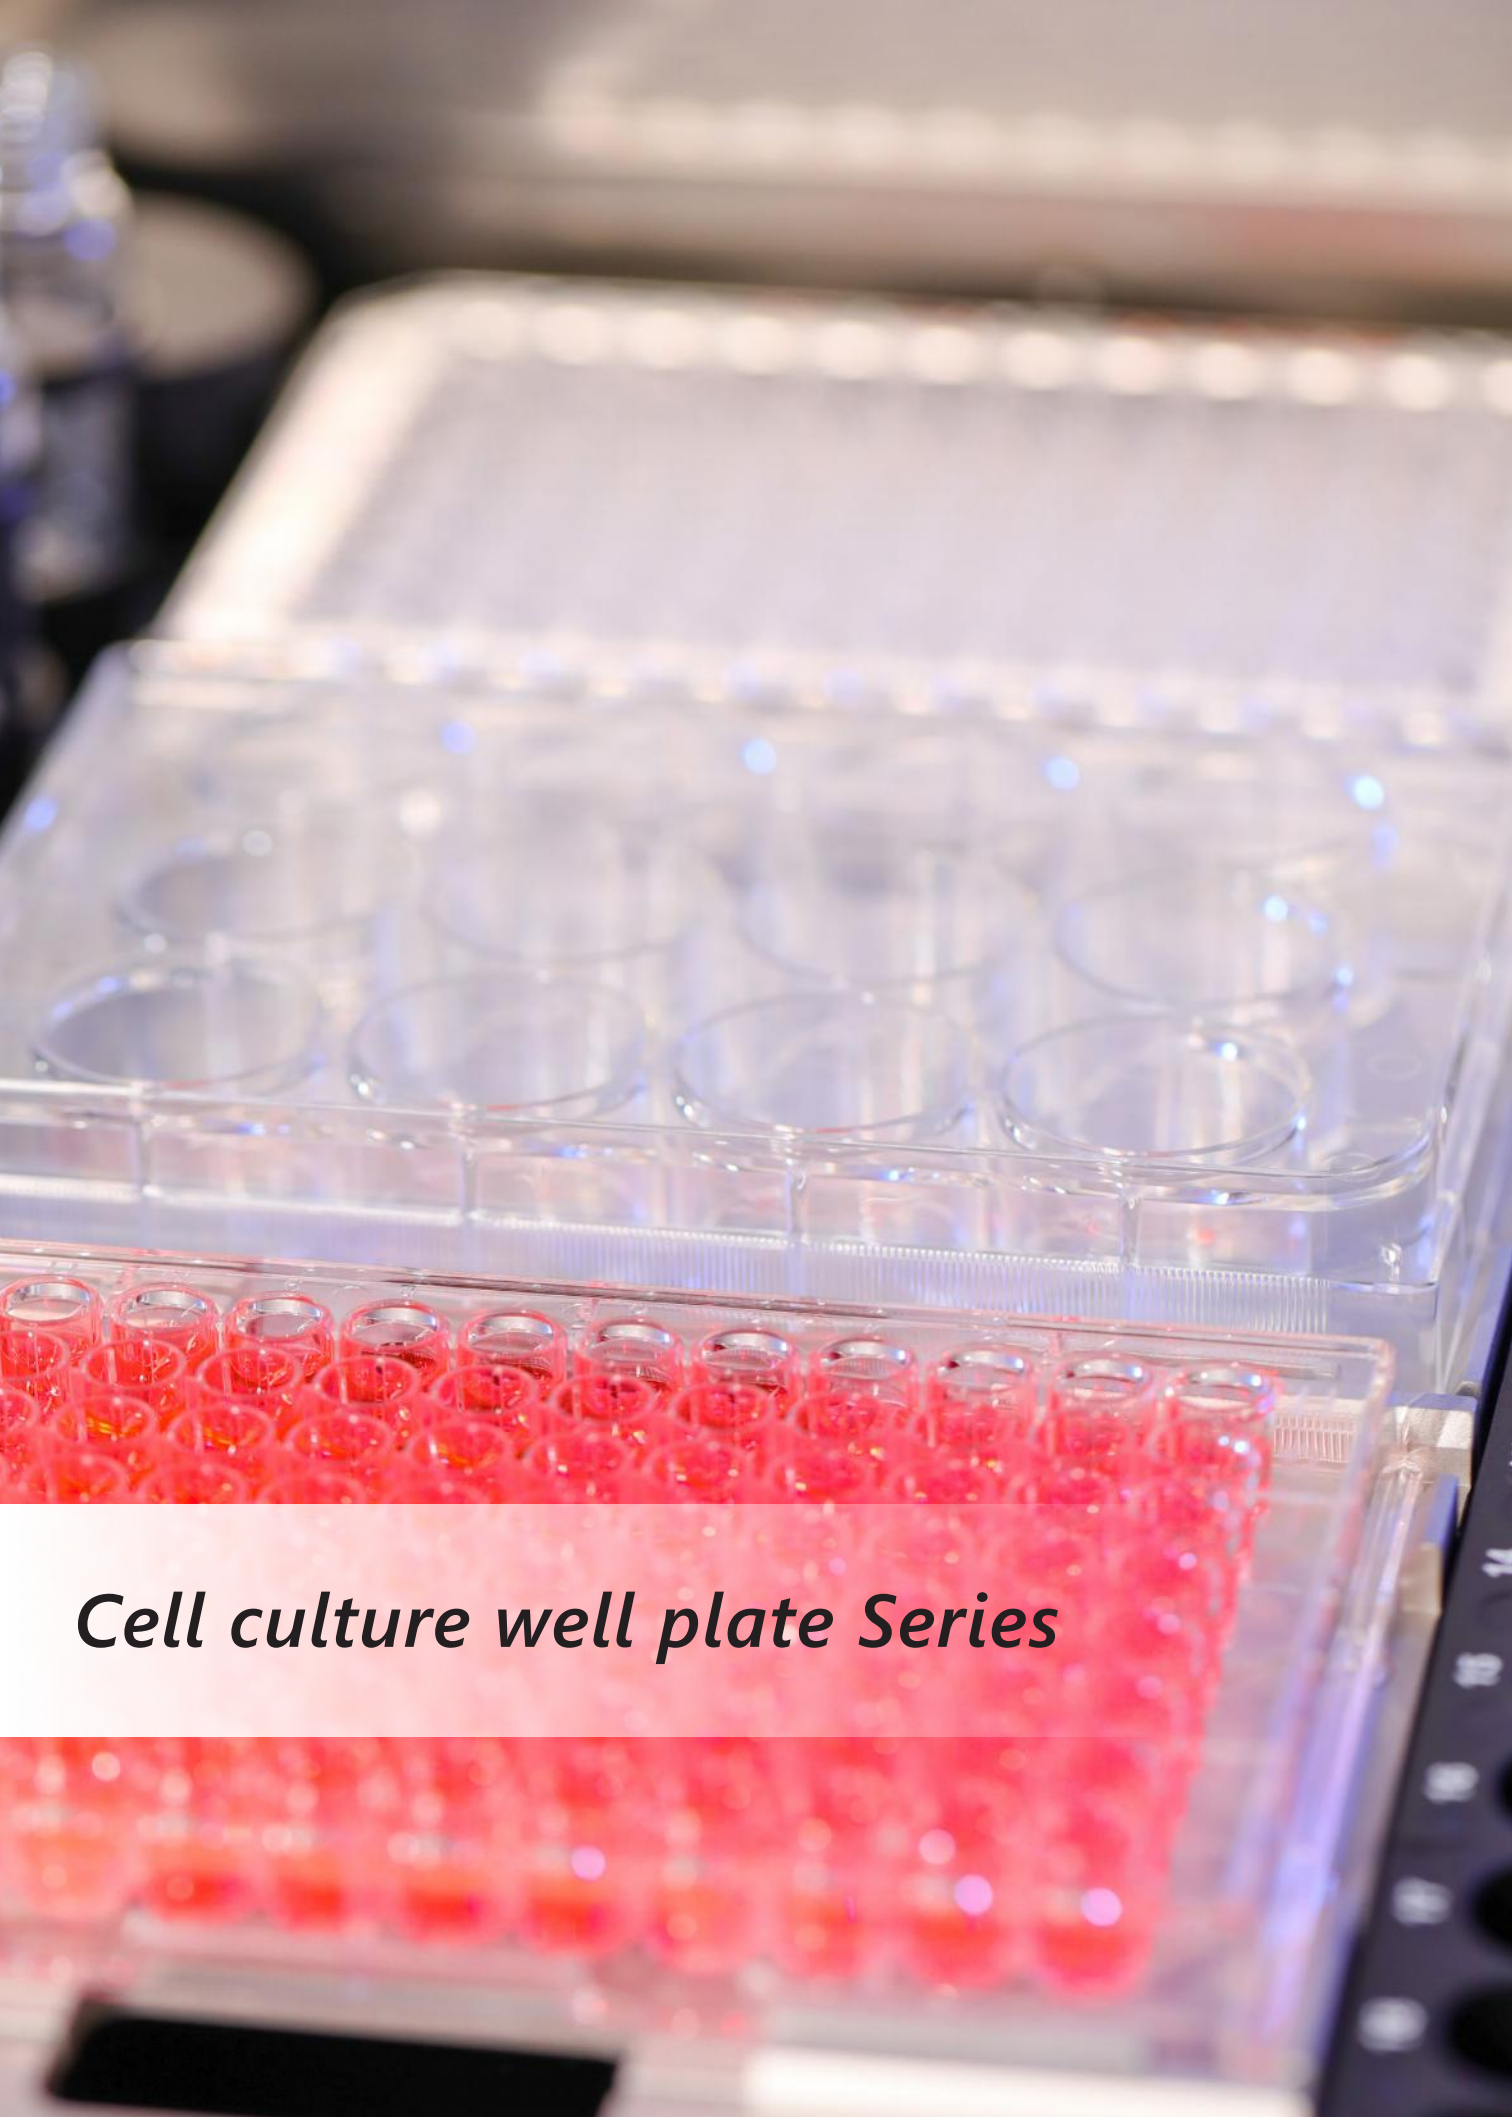

-
- ✔ High transparency medical grade polyethylene material: DNase-free, RNase-free, pyrogen-free
 - ✔ Good evenness, high transparency
 - ✔ Standard version design, indicated by numbers, individually wrapped, easy to operate

Blood group plate

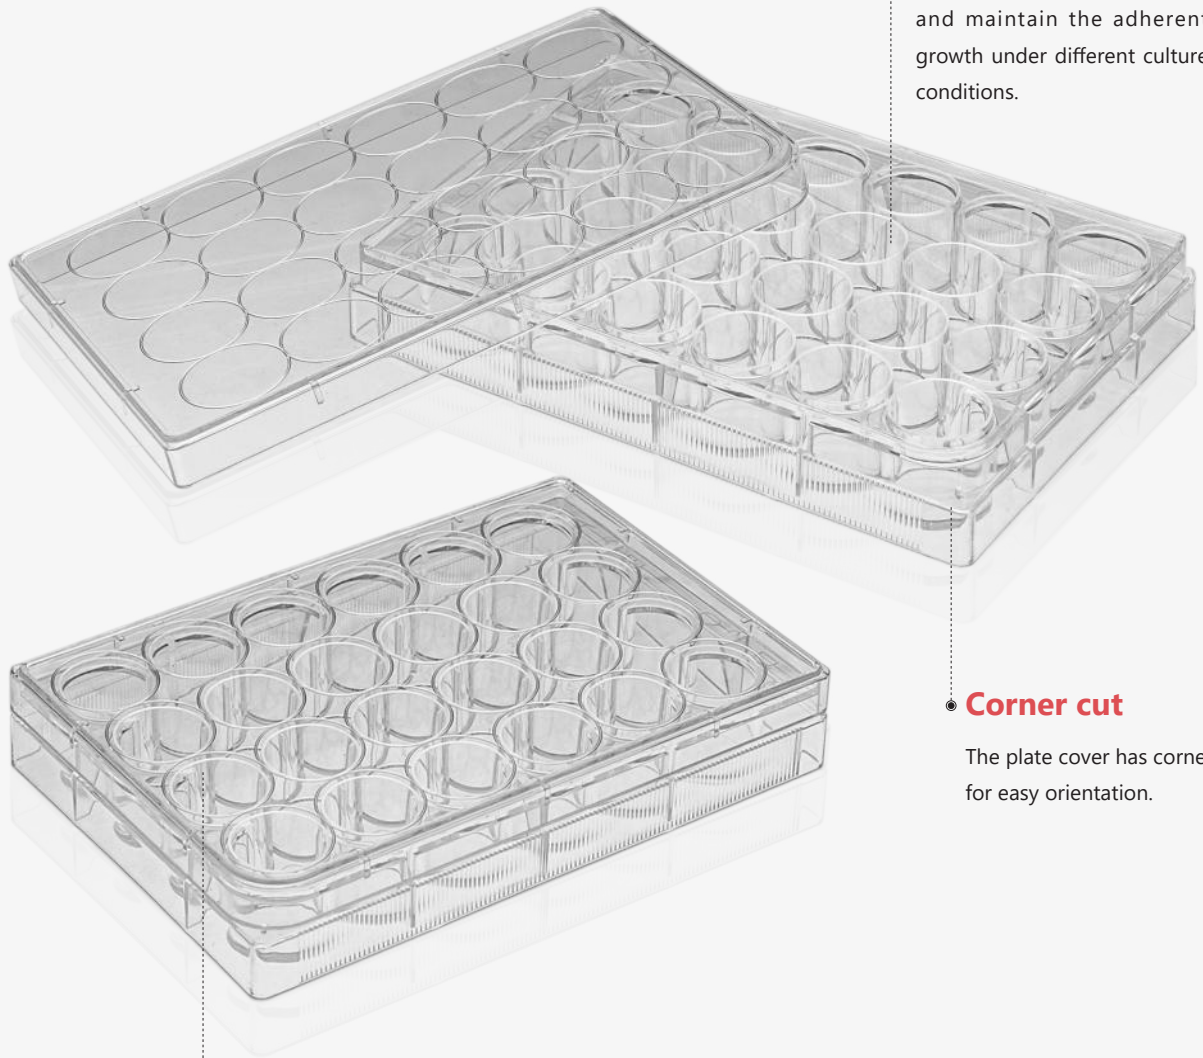

NO.	Name	Code	Unit	Packing
01	300µl blood group plate (U bottom)	CRWP300-U	bag	10 pcs/bag, 25 bag/ctn
02	300µl blood group plate (V bottom)	CRWP300-V-D	bag	1 pcs/bag, 200 bag/ctn

Cell culture well plate Series

Cell culture well plate

- **Good cultivation environment**

Improve the cells output and maintain the adherent growth under different culture conditions.

- **Corner cut**

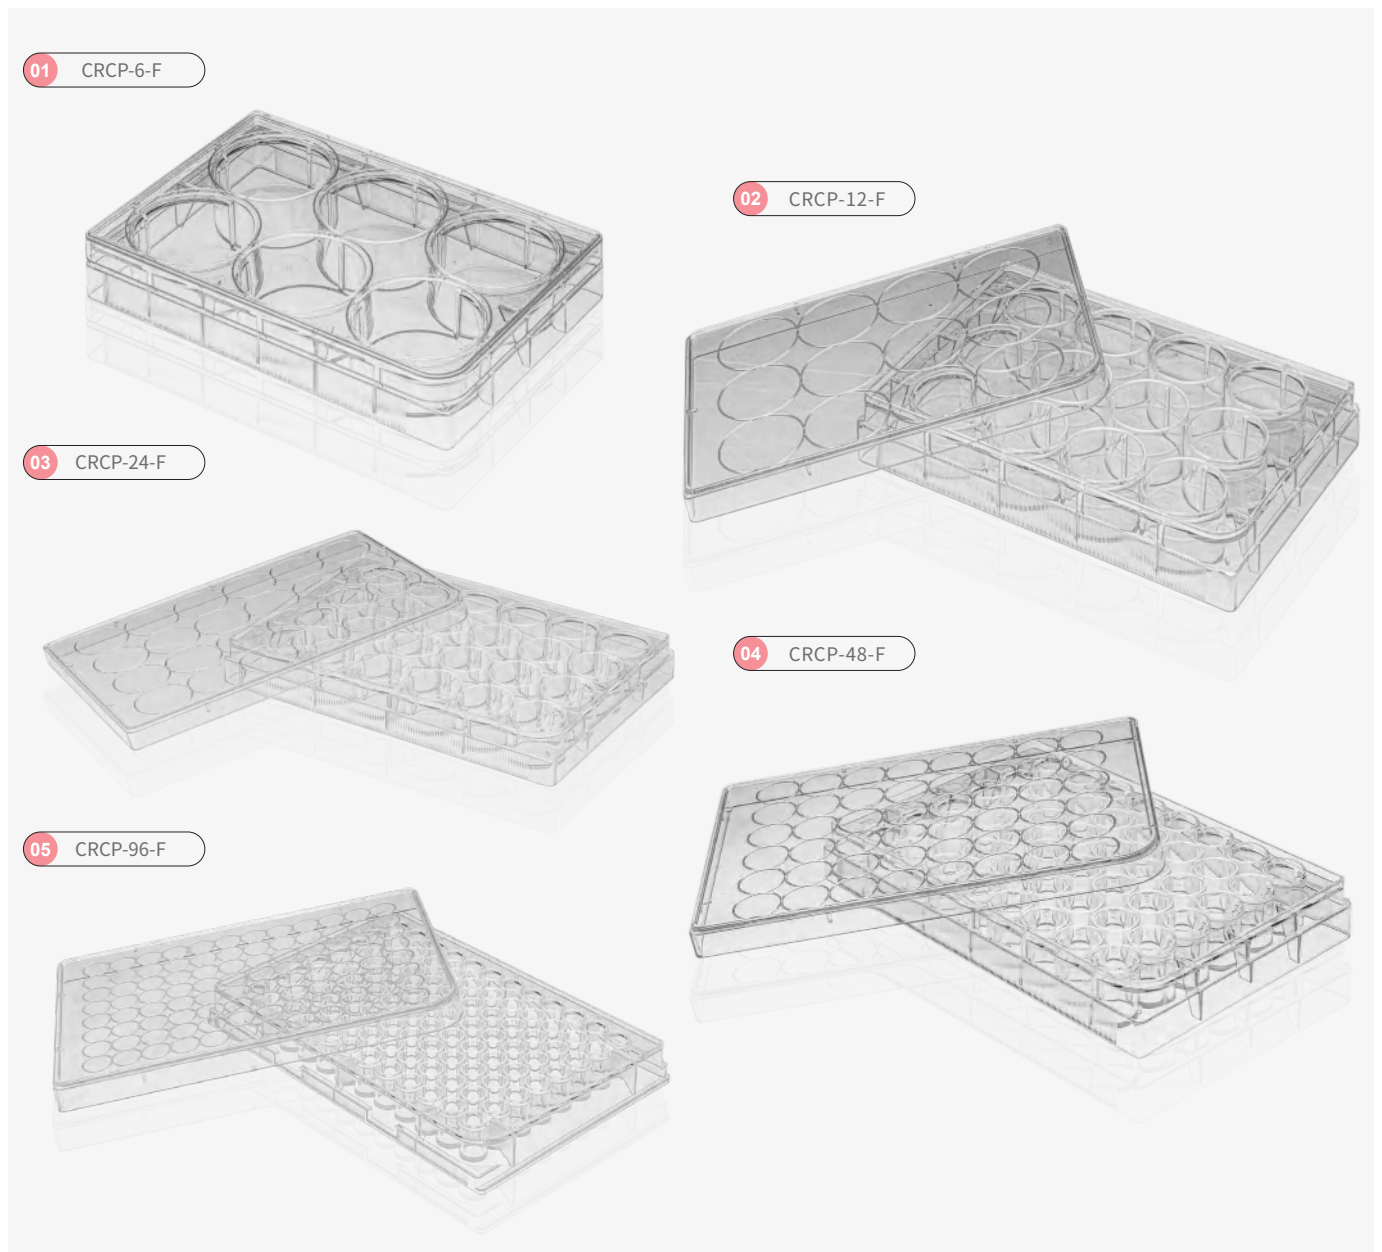

The plate cover has corners for easy orientation.

- **Strong adhesion**

Treated by TC, improve the adhesion for different types of cells to a great extent.

-
- ✔ High quality imported polystyrene raw materials; high transparency, convenient observation of cell growth.
 - ✔ Sterilization by γ -ray irradiation, DNase-free, RNase-free, pyrogen-free.

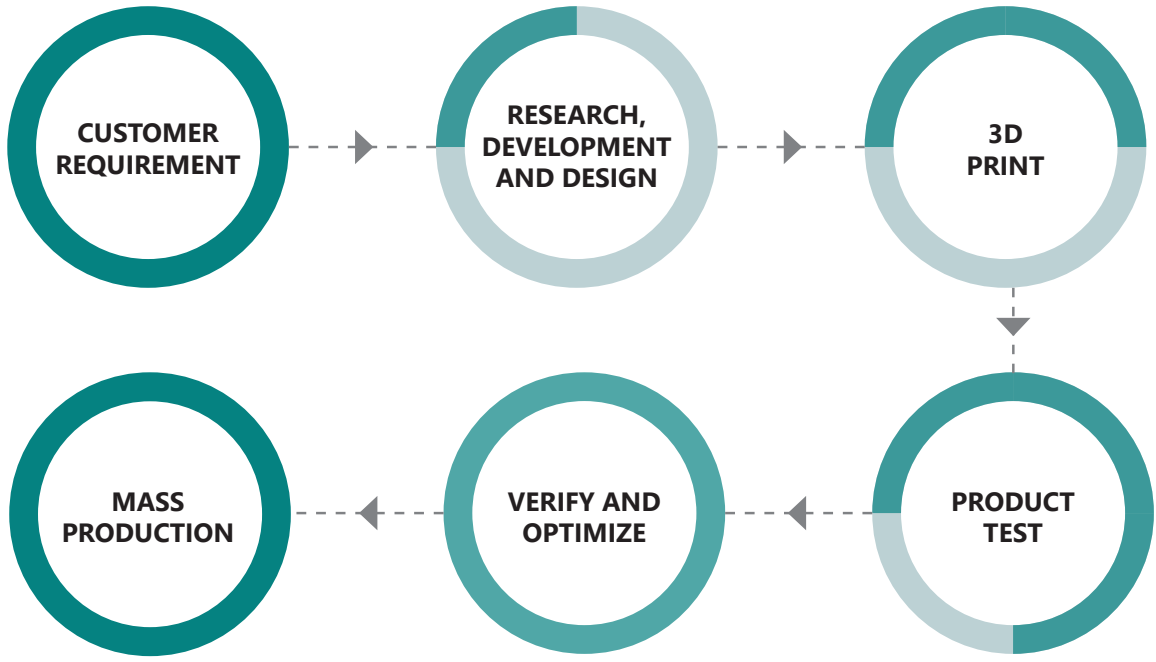

Cell culture well plate

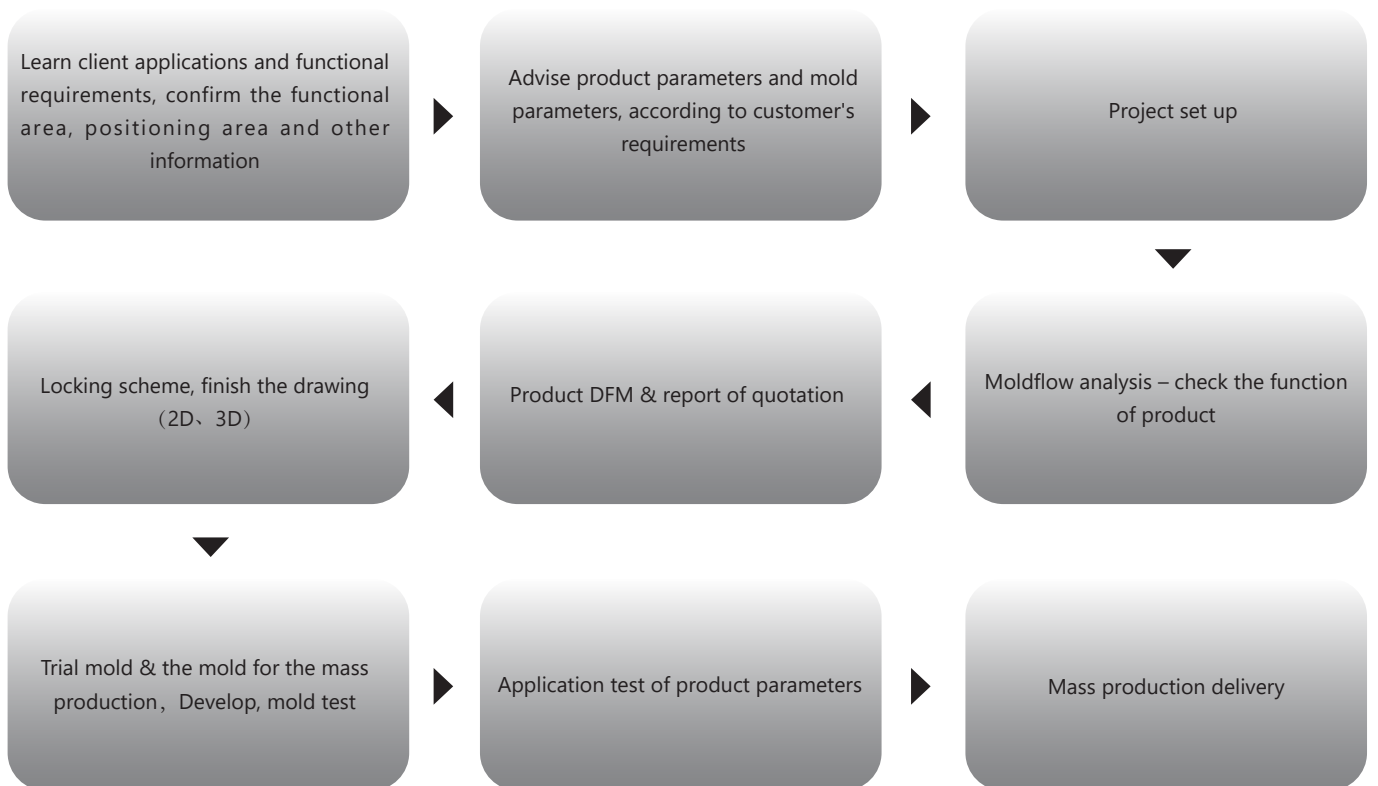

NO.	NO.	Name	Code	Unit	Packing
01		6 well cell culture well plate- with lid, flat bottom	CRCP-6-F	bag	1 pcs/bag, 100 bag/ctn
02		12 well cell culture well plate- with lid, flat bottom	CRCP-12-F	bag	1 pcs/bag, 100 bag/ctn
03		24 well cell culture well plate- with lid, flat bottom	CRCP-24-F	bag	1 pcs/bag, 100 bag/ctn
04		48 well cell culture well plate- with lid, flat bottom	CRCP-48-F	bag	1 pcs/bag, 100 bag/ctn
05		96 well cell culture well plate- with lid, flat bottom	CRCP-96-F	bag	1 pcs/bag, 100 bag/ctn

We have industry leading mold, consumable development and design ability and first-rate injection molding processing technology , and more than ten years of R&D and production experience, provide customers with customized products, R&D, manufacturing, we can meet customers' personalized and confidential demands, build "one-stop" consumables solution used in the S&T Service Industry.

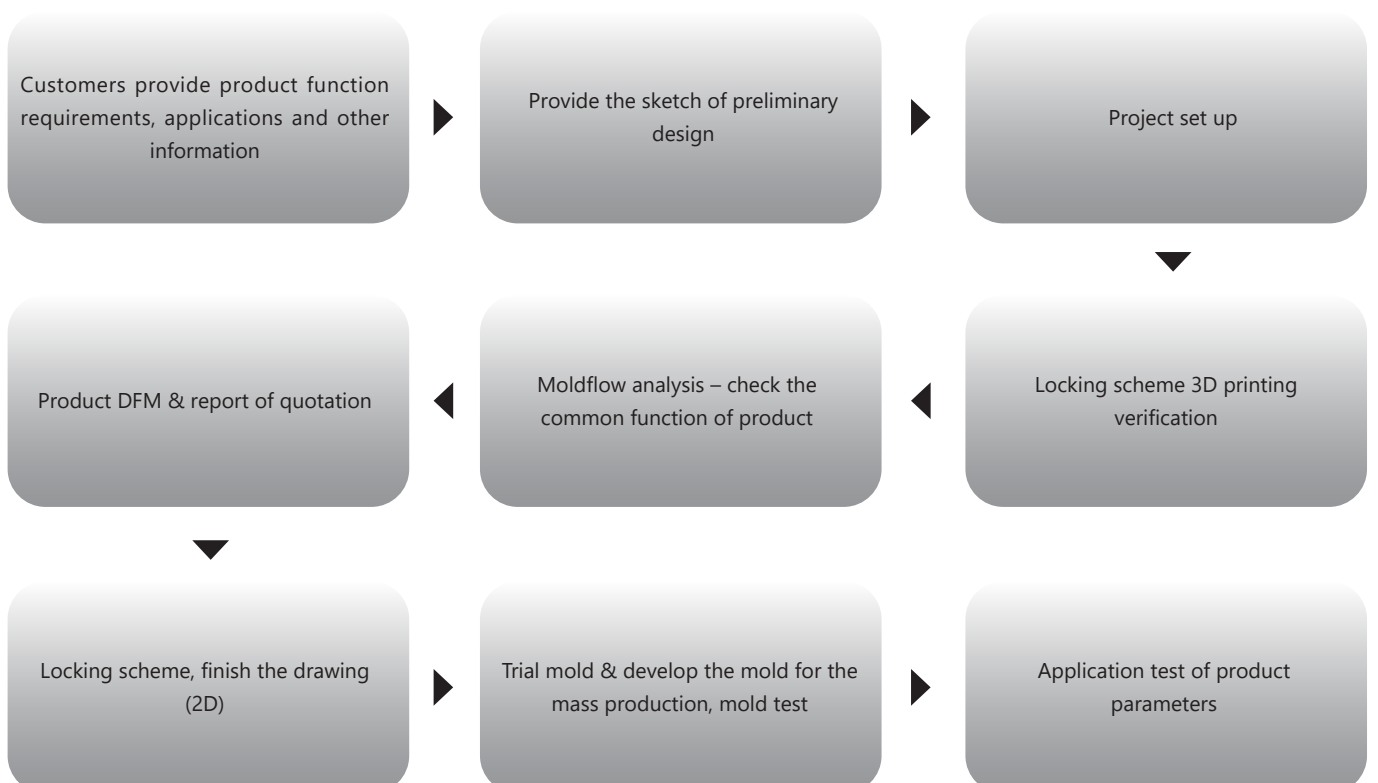

Cell culture well plate Series

ODM development process

OEM development process

Business Culture

MISSION

Improve health, create a happy life

VISION

Automatic consumables industry leader in the S&T Service Industry

VALUE

Commitment to excellence
Agility and high efficiency
Bravely take responsibility
Sincerity and winning together
